TEACHERMATIC

✕ AVALLAIN GROUP

"I've got my Sunday afternoons back."

Sarah Sellar
Lecturer

TeacherMatic is an AI platform that empowers educators to generate high-quality resources for use ethically and safely, both inside and outside the classroom.

This growing suite of tools consists of easy-to-use generators that provide teachers with everything they need to create and manage courses, including tools for the classroom, laboratory or workshop. They are suitable for educators in the ELT sector, universities, colleges and schools.

The generators have been created and tested by teachers and managers, ensuring they meet the needs of educators. The designs are grounded in sound pedagogical principles, including CEFR levelling, enabling language teachers to generate a wide variety of content tailored to their learners' language levels and ages.

→ ## Save Time

Prioritise teaching over resource creation, reducing stress and burnout.

→ ## Enhance Teaching and Learning

Designed for teachers by teachers, ensuring that they are pedagogically sound and written with language teaching best practices in mind.

→ ## Achieve a Work-life balance

Maintain work-life balance to reduce burnout and staff turnover.

→ ## Improve Efficiency

Our product is budget-friendly, making it accessible to educators and schools of all sizes.
