

Self-Paced Online Short Course

AI for Teachers: Foundations

The do's and don'ts of AI in Teaching!

Start Today

What You Will Learn

Empower your teaching with the basics of **Artificial Intelligence** in this concise, under-2-hour course designed for educators.

You'll gain a clear understanding of what AI is, how it's used in education, and how it's transforming the modern classroom. By the end of the course, you'll be able to recognise real-world applications of AI in teaching and learning, describe how common AI tools function, understand key terms like machine learning, natural language processing, and neural networks, and reflect on your evolving role in an AI-integrated classroom.

Key Features

Self-paced, fully online

2
hours

Total time commitment

Mobile-friendly & interactive

Designed by instructional design experts

Certificate on completion

Who This Is For

- + Teachers at all levels
- + Educators new to AI
- + Anyone curious about tech in the classroom

AI for Teachers: Fundamentals

Course Modules

- + **Introduction to AI** – What is AI, and where do we see it in daily life?
- + **AI Literacy** – Learn the basics of machine learning, neural networks & how systems adapt.
- + **The Future of Teaching & AI** – Understand the changing role of educators in the AI era.
